 **BLAZEPOD**
FLASH REFLEX TRAINING

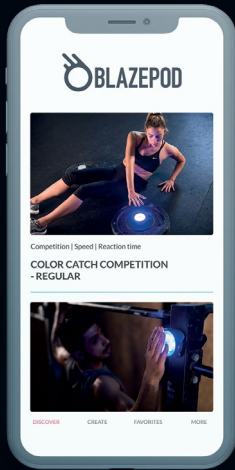

MEET BLAZEPOD

BLAZEPOD triggers your body's natural response to sensory stimulations, enabling superior, fast and coordinated movement.

Tap-sensitive Pods powered by the BLAZEPOD app provide visual cues, creating the ultimate Flash Reflex training system.

BLAZEPOD motivates you to react faster, push your limits and boost your performance. Challenge yourself or compete against others.

THE APP

For the first time in cognitive and physical training history, your personal mobile can easily connect and control multiple devices using Bluetooth Low Energy technology.

Simply download the user-friendly app from Google Play or the App Store, and take control of your Pods. Choose from predefined activities or create your own, from one of BLAZEPOD's many light logics, and track your performance down to the millisecond.

1

SIMPLE SETUP

The BLAZEPOD app connects automatically to your Pods – simply choose an activity, set out your Pods accordingly and get ready to challenge your instincts.

2

PRO TRAINING

Choose from the ever-growing list of predefined activities, or create your own. Challenge yourself or compete together in a group. Workout on your own or with your coach. Start with a warm-up to get the blood pumping, muscles activating and joints moving, then lose yourself in the addictive rush of Flash Reflex Training.

3

ACCURATE TRACKING

Track your progress with the BLAZEPOD app, and measure your performance down to the millisecond. Push yourself further with each training session, and reach new personal records.

FEATURES

Powerful RGB LEDs
with 8 color options

Up to 40 meter Device-to-Pod range and auto-connection,
powered by Bluetooth Low Energy (BLE) technology

Amazing portability with
compact and lightweight Pods

Simple and intuitive Pods with no buttons
or moving parts

Space-saving Smart Stack
& Charge system

Up to 12 hours of operation on a single charge
of the rechargeable Li-ion battery
